

## ***INDI: COMMUNITY HEROES MISSION***

Have you heard the saying, “Not all superheroes wear capes”? Did you also know that superheroes can come in small packages? Sphero’s indi might seem small, but it has super vision - able to see colors and turn them into commands or actions.

Just like indi, there are many other superheroes out there in our communities that go unrecognized. People everyday give their time and resources to help others. Who do you know that is a capeless superhero in your community? What makes them special? How do they demonstrate their superpowers?

### ***WHO IS A CAPELESS SUPERHERO IN YOUR COMMUNITY?***

- Identify a local community superhero, interview them, and tell their story.
- Create a 2D/3D map of the part of your community where your superhero serves.
- Transform indi into your community’s superhero and help indi navigate its way through the community using its color tiles.
- Tell your superhero’s story through indi and the map, using sounds, colors and indi celebrations to bring it all to life.

During the challenge season, teams will document their learning process with both pictures and words. Each team will showcase the mission objectives by submitting a video of indi turned superhero and a creative challenge.
