specdrums STORY SOUNDTRACKS

STORY SOUNDTRACKS

Visuals are only a small part of telling a story.

Each card has music clips and sound effects centered around a particular genre. Use these cards with a partner to act out a story.

- Try out all of the sound effects on a card. **Hint:** Hold down Specdrums on a color to extend the sound.
- Write a story with your partner using some or all of the sound effects.
- Perform your story with one person acting out the story while the other uses Specdrums to make the sound effects.

EXTENSION:

Record your own sound effects in the app and repeat this exercise, or play these sound effects to a story you are reading.
