

# Biolate®

- ✓ Our purpose as a business is to provide cleaning products with the lowest possible footprint and impact on the planet.
- ✓ From the outset our products have been engineered to use mainly biological and plant based actives, minimising the carbon footprint on the environment or aquatic environments.
- ✓ In terms of our sustainability certifications, we have aligned ourselves with some global certifying bodies, as well as certifying our carbon footprint locally.

Neutral Carbon Zone, working towards becoming a carbon neutral business.

Utilising packaging that is reusable and renewable. Our 5 litre containers and trigger bottles contain 30% PCR plastic, with our pouches using 75% less plastic than a 5 litre container.

EcoVadis is one of the foremost global ratings of a company's environmental, ethical and sustainability practices.

Proudly 100% produced in the UK.
