## 100% Food Grade Post Consumer Waste

- **Material 100% Post Consumer Waste**
- **Material from an EFSA registered supplier, in accordance to EU282/2008**
- **No virgin material used**
- **No Industrial waste used**
- **Can be recycled multiple times**
- **Can be printed**
- **Produced from 1 material, unlike paper cups, no separation needed, single collection & recycling**
- **Lower carbon footprint than other plastic tumblers as less energy is used to recycle opposed to manufacture**
- **Lighter than glass - less fuel and transport costs, less CO<sup>2</sup> emissions**
- **EU made not in Asia = lower carbon footprint**
- **High transparency**
- **High flexibility**
- **High Strength**
- **Shatterproof**

**Recycled PET excels in sustainability and can be recycled multiple times**
