

HELPING YOU TO REDUCE, REUSE & RECYCLE...

SUSTAINABLE SUPPLIER

Our UK-based, family-owned Group SME understands the role that our business has in helping to protect the environment, its workforce and the local communities in which it operates - it's a key focus for us and we know our stakeholders, including our customers, share that key focus.

We have a CSR policy that is front and centre of our business and have international accreditations including ISO 9001:2015 Quality Management System, ISO 14001:2015 Environmental Management System, ISO 45001:2018 Occupational H&S Management System, Carbon Trust (tracking and reducing CO2 output), Carbon Neutral, Zero to Landfill, Scottish Business Pledge, Resource Efficiency Pledge, and Living Wage Employer.

Within our integrated soap manufacturing and distribution business, we are passionate about reducing the use of plastic and product waste where possible. Our Scottish-manufactured Sea Kelp bulk-fill solution (i.e., filling 300ml pump bottles from 5L refill bottles - all our bottles are recycled and recyclable) provides hoteliers with both commercial and environmental benefits.

SEA KELP RANGE FOR BIDFOOD

- Formulated to have minimal impact on the environment, using biodegradable detergents
- Products in the range contain locally & sustainably sourced Seaweed & Kelp extracts
- 5L & 300ml products are dermatologically tested, suitable for sensitive skin
- Environmentally friendly foaming agent, formulated for soft & hard water areas
- 5L & 300ml bottles contain a nature identical preservative found in fruit
