

Super Deep -65°C Low Temperature Freezer

◆ Features

- Flat White Lid
- Quickly And Deeply Freezing.
- long life, ideal for storing tuna fish for sushi
- Microcomputer control, digital display box temperature, -55°C~ -65°C.
- High and low temperature alarm control, alarm temperature point can be set as required.
- Two kinds of alarm system: high and low temperature alarm, sensor fault alarm.
- Multiple protection functions: start delay, stop interval, extend product service life.
- Thickened insulation layer, super micro-porous foaming technology, good insulation effect.
- No fluorine foaming, no fluorine refrigerant, green environmental protection.
- It adopts single machine auto cascade refrigeration system with compact structure.
- Balanceable Hinges Of The Door, Freely Stop From 35° To 70° Angle.
- The backstage real-time monitoring box temperature, timely arrangement of after-sales service, to avoid economic loss.
- High quality per-coated liner design, drainage holes at the bottom of the box, convenient for cleaning
- Wide voltage design, suitable for use in voltage unstable areas.
- Stealthily Handle, Strong And Not Easy To Broken In Kitchen
- Safety lock design to prevent opening at will.
- Drainage Is On Front, Easy To Collect Water.
- International famous compressor, fast refrigeration..
- Internal Round Edges, Easy To Clean.
