

Electric Waffle Baker

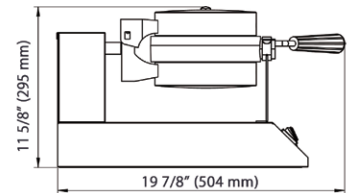

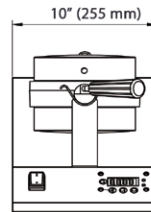

Model: WM-1100A

STANDARD FEATURES

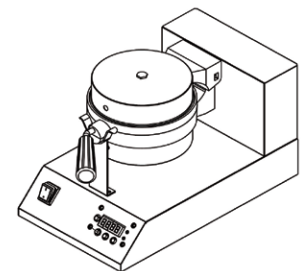

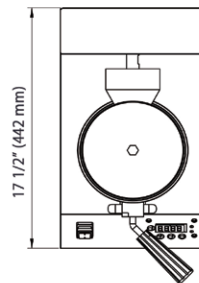

- Stainless steel structure, durable and bright
- Cool touch handle that helps to prevent accidental burns.
- Non-stick coated grids that allow you to create tasty waffles.
- Cast iron plates are more durable use and can retain more heat.
- The machine with manual control that is easy to use.
- Temperature Control Range: 124°C -230°C (254 °F -382°F)
- Time Control Range: 99 Mins & 50 Sec - 00Mins & 00 Sec
- The baking plate can revolve 180 °C (356°F)

- Close the cover, hold the handle and rotate 180° clockwise (handle to the bottom). This will lock the cover and prevent it from opening.
- Rotation ensures the waffle bakes evenly across both baking plates, giving best results.
