SAFETY DATA SHEET

4. FIRST AID MEASURES

Eye Contact	: Flush eyes thoroughly with water for several minutes. Remove contact lenses after the initial 1-2 minutes and continue flushing for several additional minutes. If effects occur, consult a physician, preferably an ophthalmologist.
Skin Contact	: Wash skin with plenty of water.
Ingestion	: If swallowed, seek medical attention. Do not induce vomiting unless directed to do so by medical personnel.
Inhalation	: Move person to fresh air; if effects occur, consult a physician.
Most important symptoms/effects, acute and delayed	: Not available.
Indication of immediate medical attention and special treatment needed	: Not available.

5. FIRE-FIGHTING MEASURES

Suitable extinguishing Media	: Water fog or fine spray. Dry chemical fire extinguishers. Carbon dioxide fire extinguishers. Foam. Alcohol resistant foams (ATC type) are preferred. General purpose synthetic foams (including AFFF) or protein foams may function, but will be less effective.
Unsuitable extinguishing Media	: Water. Do not use direct water stream. May spread fire.
Specific hazards arising from the substance or mixture	: None known.
Special protective equipment for fire-fighters	: Wear positive-pressure self-contained breathing apparatus (SCBA) and protective fire fighting clothing (includes fire fighting helmet, coat, trousers, boots, and gloves). If protective equipment is not available or not used, fight fire from a protected location or safe distance.
Special protective action for fire-fighters	: Keep away from source of ignition and use appropriate extinguishing media. Fight fire from upwind position if possible.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	: Use gloves, face shield
Environmental precautions	: Prevent from entering into soil, ditches, sewers, waterways and/or groundwater.
Methods and materials for containment and cleaning up	: Recover spilled material if possible. Contain spilled material if possible. Absorb with materials such as: Sand and other inert absorbent. Collect in suitable and properly labeled containers and remove to safe place. Flush away remainder with water. Dispose off in accordance with local, state and federal regulation.

SAFETY DATA SHEET

7. HANDLING AND STORAGE

Precautions for safe handling : Avoid contact with eyes and skin.
Use gloves and wear goggles when handling.
Always work safely around open hatches on bulk tanks.

Conditions for safe storage including any incompatibilities : Keep in a cool and dry place, avoid extreme heat and cold.
Avoid direct fire. Keep separate from strong oxidizing agents.
Keep containers tightly closed.
Avoid direct sunlight.

Store in clean, dry, preferably stainless steel vessels.
In bulk, store at ambient temperature. For pumping, heat up to above 60 deg C.
Temperature higher than necessary degrades quality at rate dependent on time and temperature of exposure.
Exposure to ultraviolet light and sunlight must be minimised to prevent quality loss.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Chemical Name	Exposure limit	Category	Origin
Glycerol	10mg.m ⁻³	mist	-

Appropriate engineering controls : Good general ventilation (typical 10 air changes per hour) should be used. Ventilation rates should be matched to conditions.

Individual protection measures, such as personal protective equipment

Eye/Face Protection : Wear eye/face protection. Wear chemical protective equipment that is specifically recommended by the manufacturer

Skin Protection : Hand protection : Wear protective gloves
Other : Wear suitable protective clothing

Respiratory Protection : When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.

Thermal Hazards : Not available.

Environmental exposure controls : Not available.
