YoLink Product Solution Bulletin-Proactive Measures for Preventing Accidents & Enhancing OSHA Compliance March 2024

YoLink Proactive Solutions for Preventing Accidents and Enhancing OSHA Compliance.

Solutions to Strengthen Your Company's Safety Programs & OSHA Compliance with Effective & Budget Friendly YoLink Products.

Proactively increase your Accident Prevention & Safety Compliance efforts with product solutions using YoLink sensors 24/7, by monitoring for hazards that could cause Slips, Trips and Falls, Blocked Exits & Aisles, Locked Exit Doors, Room occupancy monitoring, Clear Walking & Working surfaces.

Safety Maintenance hazards created from Leaking Water, Water Drips, and Over-Flows, which can turn into inside FLOOD hazards. YoLink has leak detection sensors, and devices with Value Shut off capabilities, all can be monitored & controlled 24/7 from a PC or YoLink Cell Phone App.

YoLink Has Proactive Safety & Security Solution Products for Leak Detection monitoring, Area Monitoring, Security Cameras, Motion Detectors, Proximity detectors, Smart Locks, and more.

Does your Lithium Battery charging, and storage areas have a Proactive Fire Prevention program with a Proactive monitoring for Early Detection for a Lithium Battery's Thermal Runaway (TR) potential? YoLink has Temperature & Humidity, CO sensors, & Camera monitoring system Packages for this Solution!

Proactive Life Safety, Fire Prevention, Smoke & CO with YoLink Safety enhancements.
YoLink Solutions Security Camera, Motion & Proximity Detection, Smart Locks, and many more Solutions!

Does your company's Heat Stress prevention program have active Temperature & Humidity monitoring for OSHA compliance? YoLink has a Temperature and Humidity monitoring system Package for this Solution, which can be monitored & controlled 24/7 from your PC or YoLink Cell Phone App.

YoLink has Whole Building Device Control! *Using one YoLink Hub with LoRa range of ¼ mile (1320 feet), with our Smart App's active 24/7 monitoring capabilities, email notifications, record retention, plus easy to use and install. A Hub has a unique Control-D2D device-to-device pairing, you create links between one device and up to 128 other devices. Once a pairing relationship is set, the devices will respond accordingly, even if WiFi, internet, or power is out. Numerous Features included in App Control. Or upgrade to our new 'Raedius' web console. Proactive Smart Building Features and Proactive Management Capabilities with Raedius Web Console!*
