

## **YoLink Product Solutions for Fighting Inflation Costs.**

February 2024. *The Global Market Research company 'Ipsos' lists inflation as the number '1' consumer concern globally.* Inflation is hurting Business and Families; both are concern about their increasing electricity and water costs. Reducing the effects of Inflation is on all of our to do now list! The question is, “What can I do today to reduce the daily household or business energy costs?” Answer. Use YoLink Energy Monitoring Sensors, either as new client, or adding energy savings sensors to your existing YoLink Smart system, both will provide you with an energy cost reduction plan that is efficient and saves \$ on your daily energy costs.

In Inflationary times one of the proven survival tactics is to manage both your necessary and unnecessary energy costs. This is one of the first actions business and consumers MUST take to regain control and fight back their inflationary costs exposures. YoLink has proven inflation fighting solutions.

***YoLink Sensors solutions will help you reduce your energy expenses and avoid costly repairs.***

STOP Unnecessary energy costs; *Electrical devices that are not turned off after use, or work hours, e.g., Radios, TVs, Fans, Floor Heaters, Lights, even USB powered devices.* Causing you Unnecessary High Electric Bills due to these Devices or Lights being left on. With YoLink Sensors each device or light can be turned on or off by a YoSmart device using the YoLink app. How? With YoLink's Smart Wall Outlet, Smart Power Strips, Smart Plugs with power monitoring, YoLink's outdoor smart plugs, or Motion Sensor for activating Lighting control. <https://shop.yosmart.com/collections/power-lighting>

No Heat, No Hot Water! complaints, or Production Equipment's or Conveyor's Motor's Bearing locking up and shutting down productivity. All can be avoided with Temperature Sensor with probe model # YS8004. <https://shop.yosmart.com/collections/smart-sensors>

Avoid increased costs from Maintenance issues, 'Leaking Water, Water Drips, and Over-Flows,' Which costs \$ and can turn into a costly damage repair from flood. YoLink has leak detection sensors *and devices with Value Shut off capabilities,* to help control repair costs from unnecessary water consumption costs. Explore YoLink FlowSmart Meter, a smart wireless water meter sensor, for use by itself or with a water meter with pulse counter output, integral smart water meter sensor/valve controller, water meter and motorized valve kit. <https://shop.yosmart.com/pages/yolink-smart-water-solutions>

All YoLink devices have 24/7 Notifications capabilities (single or multiple contacts) via emails, SMS, via an APP on your Smart Phone or PC, add an optional Audible notification from a YoLink audible device. Each Sensors can link up to 1/4-mile open-air wireless range, with superior wall, and obstruction penetration, including concrete, masonry, even metal! YoLink sensors will monitor and control sensors from your PC or Cell Phone App. Training / Installation is provided through *Videos, Manuals, and Step-by-Step instructions.* Technical support is provided by email or phone. Explore YoLink by YoSmart Solutions. *Place Orders at YoSmart.com links.* <https://shop.yosmart.com/pages/shop-home-page-1>

*These examples are all your cost-saving opportunities.* Act now to start your Inflation fight.
