

the natural dog company
ALL NATURAL DOG TREATS COLO. USA

BEEF TENDONS

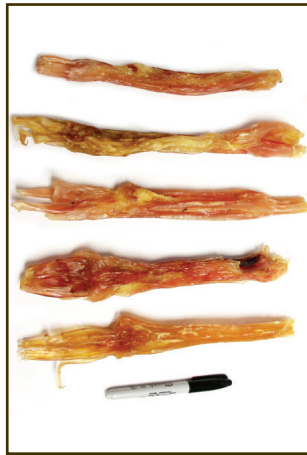

Ingredients: 100% beef tendon, sourced from free range grass fed cattle.

Description: These tendons have very little odor and are longer and thicker than any of the other tendons we carry.

Recommended for: All life stages of dogs. 9" jumbo tendons are best for large dogs 50+lbs, 6" jumbo tendons for medium dogs 30+lbs, and 6" skinny tendons for small dogs under 30lbs.

Chew Time: A long lasting chew for most dogs, a moderately lasting chew for large dogs.

Sales Tips: This is an inexpensive chew, compared to how long it takes the average dog to consume it. Tendons are a natural source of collagen and glucosamine. This chew is lower in fat compared to treats like roasted bones and trachea, so it's a little easier to digest for those dogs with sensitive stomachs. Tendons are also a good option for teething puppies.

Guaranteed Analysis:

Crude Fat 6.7%
Crude Protein 77.0%
Moisture 10.2%
Crude Fiber 1.3%

Country of Origin: Brazil

Ways to Purchase: Available in a 6" length, either skinny or jumbo sized, or a 9" jumbo sized
