ALL NATURAL DOG TREATS COLO. USA

TWISTED LAMB GULLET STICKS

Ingredients: 100% lamb esophagus.

Description: Made of two lamb gullets twisted around each other. There is some variation in length, each piece is around 8-10" long.

Recommended for: Dogs of all sizes and life stages.

Chew Time: A quick chew for medium and large dogs, a moderately lasting chew for small breeds and puppies.

Sales Tips: This chew is softer and a little easier to digest compared to a bully stick, so it's a great recommendation for customers who are concerned about harder chews or customers with dogs that have missing teeth or other dental problems. This chew is much more palatable than a bully stick, so it's perfect for those picky dogs who are discerning about what they're chewing. As a lighter and smaller chew, it's also appropriate for those little toy breed dogs!

Country of Origin: Turkey

Ways to Purchase: Also available in a 5 count bag or in bulk.
