ALL NATURAL DOG TREATS COLO. USA

## BULLY RINGS

**Ingredients:** 100% bull pizzle, sourced from free-ranging, grassfed South American cattle.

**Description:** A beef pizzle is split in the center, with the two ends left intact. The raw pizzle is threaded onto a metal cylinder and baked. There can be some variation in the thickness of each ring. On average, the inside diameter is about 2-3" wide, and the outside diameter is 3-4" wide.

**Recommended for:** All life stages and sizes of dogs.

**Chew Time:** A long lasting chew for puppies and small to medium-sized dogs, a moderately lasting chew for large dogs.

**Sales Tips:** Due to the round, wide shape, it may be a suitable chew for dogs (depending on their size) who tend to try to gulp large pieces of narrow treats whole. This chew is slightly softer than most traditional straight bully sticks, making it ideal for young puppies who are just starting to teeth.

### Guaranteed Analysis:

Fat 0.46%  
Protein 86.86%  
Moisture 9.86%  
Fiber 1.55%

**Calorie Content:** 3.93 Kcal ME/g

**Country of Origin:** Brazil

**Ways to Purchase:** In bulk, 25 pieces per case.
