ALL NATURAL DOG TREATS COLO. USA

BEEF AND LAMB CHEWIES

Ingredients: 100% beef headskin, OR 100% lamb headskin.

Description: Beef chews are a long, continuous strip of beef headskin. Similar to "cheeky rolls", except not rolled up.

Recommended for: Lamb chews or 6" length beef chews: Small to medium dogs under 30 lbs, 12" length: Medium to large dogs over 30 lbs.

Chew Time: This is a moderately lasting chew for medium dogs, and a long lasting chew for small breeds.

Sales Tips: These chews aren't processed as heavily as traditional rawhide. You can see all the different layers of the skin which remained intact. The long strip will be more easily digestible compared to a shape such as a knotted bone. This chew is non-greasy and odorless, and a good recommendation for customers who are worried about chews that can cause a mess on their carpet. Safe for teething puppies to gnaw on - all new puppy owners need to know about long lasting chews in order to keep their puppy busy and teach them which items are appropriate to chew!

Country of Origin: Turkey

Ways to Purchase: In bulk, in a 6-12" length. Lamb chews are also available in varying lengths in a 6oz bag.

Guaranteed Analysis: Lamb chews: Crude protein 68.78%, Crude fat 16.10%, Moisture 6.83%, 1.89% Crude fiber

Beef chews: Crude protein 80.18%, Crude fat 7.96%, Moisture 7.28%, Crude Ash 4.58%
