ALL NATURAL DOG TREATS COLO. USA

## BEEF HOOVES

**Ingredients:** 100% beef hoof.

**Description:** Made of one half of a cow's hoof. Hooves may be black or tan depending on the color of the cattle. Hooves don't have much of a smell while they're dry, but there will be a noticeable odor once the dog starts chewing on it.

**Recommended for:** Adult dogs of all sizes who love to chew.

**Chew Time:** A very long lasting chew for most dogs.

**Pro Tips:** If you are looking for a chew that's inexpensive AND extremely durable, look no further. You can stuff a hoof with some canned dog food and freeze it overnight for extended enjoyment. Hooves are very hard so they're a good option for dogs that consume other chews a little too quickly.

Hooves are one of the most toughest, hardest natural chews available on the market. Because of the density of cow hooves, we don't recommend this chew for dogs with underlying dental problems.

**Country of Origin:** Brazil
