ALL NATURAL DOG TREATS COLO. USA

SALMON SKIN CHIPS

Ingredients: Salmon skin.

Description: We use wild-caught sockeye salmon from the Pacific Ocean. The skins are used to make our natural dog treats, and the rest of the salmon is edible and goes towards human consumption (filets, sushi, lox, etc.)

These salmon skins are so fresh, there may be a small amount of oil pooling at the bottom of the bag, which is safe for pet consumption.

Recommended for: All life stages and sizes of dogs.

Chew Grade: The texture is somewhat firm, and breaks apart into smaller pieces easily.

Sales Tips: Salmon skins are nutritious, and a natural source of omega-3 fatty acids, protein (including lots of collagen), vitamins (such as vitamin D and B vitamins), and minerals (such as phosphorus). Salmon is a beneficial part of your dog's regular diet, as the nutrients found in salmon play a role in skin and coat health, support the immune system, and decrease inflammation. Even more importantly, omega-3 fatty acids are incorporated in the cell membranes of all body tissues, including the brain.

Guaranteed Analysis:

Crude Protein: 70% min

Crude fat: 8% min

Moisture: 10% max

Fiber: 0.5% max

Calorie Content: 4.8 Kcal ME/g

Country of Origin: Made in USA

Ways to Purchase: 3 oz bag
