ALL NATURAL DOG TREATS COLO. USA

CHICKEN JERKY

Ingredients: 100% chicken. That's it!

Description: Made of strips of chicken muscle that has been flattened and then baked at a low temperature. Each piece is thin and crisp, like a potato chip. You can easily break each jerky into small pieces for treat training.

Recommended for: Dogs of all life stages and sizes.

Chew Time: A quick treat for most dogs.

Sales Tips: Unlike many other chicken jerky on the market, there is NO glycerin or anything extra added - just 100% chicken! It's a high value reward for dogs - we've seen most dogs go absolutely nuts for this treat. You could also stuff it into a puzzle toy, such as a Kong, and watch your dog use their problem solving skills to get the treat out of the toy.
