CHOMPIN' ON THE BITS

Ingredients: 100% beef intestine.

Description: These Chompin' on the Bits are made from human-grade beef sausage casings that got rejected for being too thick. These bits of beef intestine are hard and crunchy, with a similar texture as a wonton chip.

Recommended for: All sizes and life stages of dogs.

Chew Time: Very quick, more of a training treat than a long lasting chew.

Pro Tips: Each bit can be broken into smaller pieces, making it a good option as a training treat. This treat has a low price point, compared to other 8 oz bags of treats. Unlike a traditional biscuit, the Chompin' on the Bits is a single ingredient treat with NO fillers. Beef intestine is known to be high protein, low fat, and a good source of some vitamins and minerals, such as zinc, iron, and B12. Stuff some bits into a treat dispensing toy - your dog will have fun figuring out how to remove the treats!
