## YAK CHEESE PUFFS

**Ingredients:** Yak milk, salt, lime juice.

**Description:** These yak waffles are made from remnants of our Nepalese Yak Cheese Chews that have been reheated and puffed into an odorless, non-greasy, crunchy cheesy snack. There will be variations in the size of each piece. The texture is very firm, but will crunch easily as a dog starts chewing on the treat.

**Recommended for:** All life stages and sizes of dogs.

**Chew Grade:** This is more of a treat, rather than a chew, and will be eaten quickly.

**Sales Tips:** These yak cheese puffs are the real deal, sourced from free range, grass fed yak in Nepal. We don't use any skim milk or cow's milk like some other similar products on the market.

Due to the low price point per piece, we recommend keeping a small basket of these treats up by your cash register as a part of your point-of-purchase merchandising strategy!
