Educational Field Trip Policy

Reason for Policy

Properly supervised and planned educational field trips (i.e. field work) are an important part of the instructional program.

Policy Statement

As part of the school enrollment forms, New City School asks that parents or guardians provide a one-time approval for all Tier I field trips for a school year. Tier I field trips are walking field trips of one mile or less.

For all Tier II field trips (i.e. those longer than one mile or that require transportation), a signed permission form from a parent or guardian is required for each specific trip. All field trip slips are due at least 2 days before the scheduled trip.

Adopted by the NCS Board of Directors, April 18, 2018
