## HOW TO DETERMINE YOUR RING SIZE

### CONFIRM PRINTED PAPER SIZE

- i. Ring measurement are very precise. Please carefully follow these instructions to obtain an accurate measurement.
- ii. Prior to printing, ensure that Page Scaling is set to “none” on your print dialog box. (To print, press CTRL+P ).
- iii. Measure the bar on the left. It must be exactly 30 mm long.

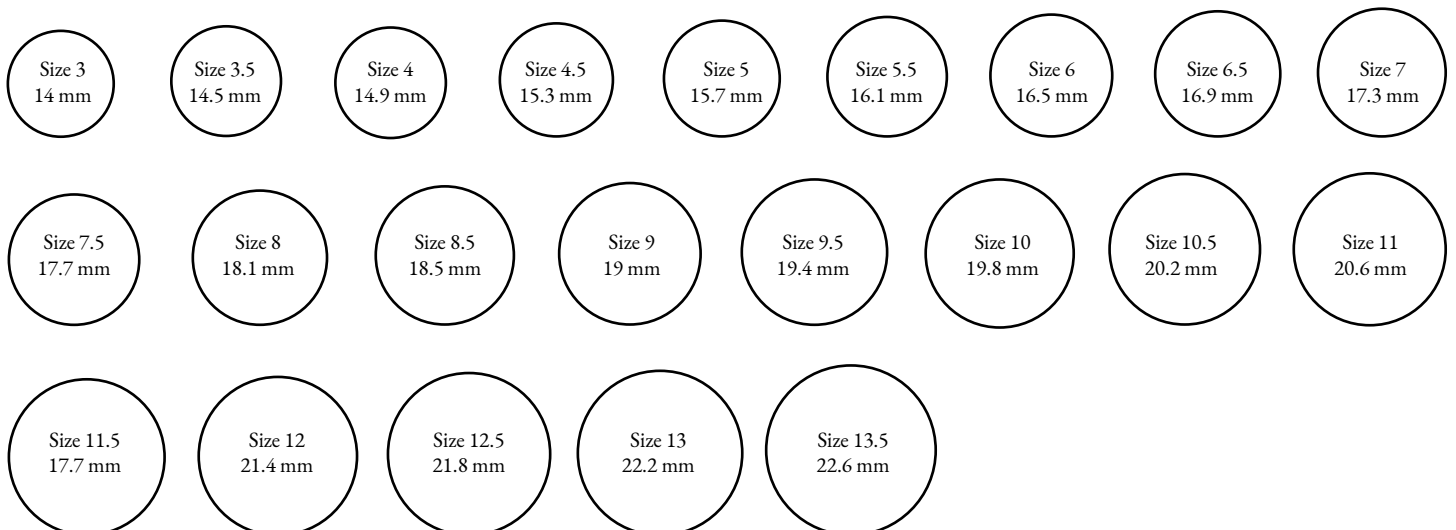

### MEASURING CURRENT RING

Measurements match the inside edge of the ring

- i. Select a ring that properly fits the intended fingers.
- ii. Place ring over the circles below, matching the inside edge of the ring to the nearest in size. This measurement refers to the inside diameters of your ring.
- iii. If the rings falls between two sizes order the largest size.

## IF YOUR FINGER SIZES ARE A MYSTERY TO YOU, WONDER NO MORE

### USING THE PRINTABLE FINGER SIZER

- i. Ensure the page scaling for printing is set to 100% or 'none', then print.
- ii. Cut the finger sizer strip out and slot the narrow end into the slit with the printed side facing out.
- iii. Slide the finger sizer up to the knuckle, as the ring must be sized large enough to slip on and off over the knuckle.
- vi. Use a pen to mark the joining point on the finger sizer, indicating the US standard measure size.
- vii. Do this 3 to 4 times to get a more accurate measure.
- viii. Should the measurements fall in between two sizes, we recommend that you choose the larger sizes.

Alternatively, if you have a ring that properly fits the intended finger, use the print out of the MEASURE CURRENT RING sheet to match the inside diameter of the ring.

We printed at 100%, this length should measure 13 cm  
Please use a ruler to be sure.
