Now, all Mercedes-Benz devotees can delightfully protect their device with a unique and elegant accessories.

The most brilliant brand mark.

Shining star.

All achievements are represented by the Mercedes-Benz Star, perhaps the most classically beautiful symbol in the world. Gottlieb Daimler drew this star on a postcard, hoping it would cast its blessing upon his work. His sons interpreted its points as symbolising engines used to propel vehicles on ground, water and in the air. Today, all over the world, it symbolises brand values, and the quality and prestige associated with these products.

The most successful colour.

Silver machine.

In 1934, Mercedes-Benz entered a W25 racing car in the International Eifel Race at Nürburgring. The weight limit was 750 kg, but the W25 weighed a few kilos too many. To lose weight, the mechanics scraped off all of the white paint on the night before the race. This revealed the shining aluminium.

Today, silver is the most popular colour in the world for cars.
