THE MAQUI BERRY

OUR STAR INGREDIENT

THE MAQUI BERRY

Currently our star is the Maqui Berry, combined with Blueberry and Myrtle Berry. These ingredients have countless benefits because they contain a high concentration of antioxidants and polyphenols. When used in cosmetics, the Maqui Berry is a great antioxidant repairing tool. It prevents and protects us from the effects of aging. Our extracts' benefits are backed by great amount of research.

If you see our product on display, you can't help but notice it. It's catchy and has history. We proudly present you with the Chilean Machi, Queens of ancient civilizations and experts in medicine from Mother Earth consumed this fruit.

You will be able to see the fruit inside of the bottle.
You will feel like grabbing and smelling it.
This is because this product's aroma, found in our shampoo, conditioner and body cream, is that of berries with a citric note that will awaken the restless perfumer that we all have inside.

The Maqui Berry is a native fruit of South of Chile used for years by the Mapuche community as a natural remedy due to its multiple health benefits.

LINE:

MAQUI BERRY-MYRTLE-BLUEBERRY
