\*A standard starter rebuild includes new front end plate bushing, rear end plate bushing, field coils, and brushes. If your starter has any parts damaged beyond the standard rebuild parts, you will be notified and quoted before any work continues.

Please Note: Your core starter will be inspected prior to beginning service. You will be contacted if your starter is damaged or in need of repair not covered under a normal rebuild. Please package your parts well as we are not responsible for damage that happened during shipping or items lost in shipping.

### ACCEPTANCE OF SERVICE TERMS AND CONDITIONS

I release Prewar & More Antique Auto LLC from any liability of condition, fitment or warranty of customer supplied parts or materials. I have provided Prewar & More with the following parts and materials, and have requested that Prewar & More Antique Auto use them in connection with the repair of my starter. All customer supplied parts are considered used condition.
