Dear Store Manager,

Please consider carrying Bubba's-Q's Patented Boneless Baby Back Ribs as seen on Shark Tank created by former NFL great AL Bubba Baker.

Bubba's-Q is the only people in the world that remove the bones from an actual slow smoked slab of top quality Baby back ribs, while leaving the meat in tact (this is not reshaped and reformed). When your customer purchases our boneless ribs we have already dry rubbed them, smoked them, removed the bones, and sauced them with our award winning sweet & savory Carolina sauce, all they have to do is heat them and eat them.

Our patented Bubba's Boneless Baby Back Ribs are very easy to prepare, they can be warmed in the microwave in less than 2 minutes, in the oven for 10-12 or on the grill, no mess no fuss.

As a regular shopper in your store, I would love to see you carry this delicious, and easy to prepare food.

Bubba's-Q Boneless Ribs have been featured on Shark Tank, Good Morning America, QVC, [zulilly.com](http://zulilly.com) and more.

You can get more information about this product by calling the Bubba's-Q sales team at (440)319-5744 or by sending an email to [bubbasq@prodigy.net](mailto:bubbasq@prodigy.net)

Thank You for your consideration
