Storage

CARE & CLEANING

- All of our storage products are made from 100% heavyweight cotton canvas, which is naturally durable and stain resistant.
- Because the natural fibers will absorb moisture, nothing wet or damp should be left in them.
- Do not machine wash!
- If needed, we recommend that you spot clean as needed with a clean dry cloth.
- If the stain persists, hand wash the affected area only with a clean, slightly damp cloth, with natural detergent if needed.
- To get your storage perfectly perfect, iron the inner sides with high steam.
