

# PRODUCT SPECIFICATION REPORT

Elec III Plus is a nonflammable, nonconductive, noncarcinogenic, electrical contact cleaner for circuit boards and electronic parts. This product quickly removes oil, grease, lint, flux, dirt, moisture from electronics without leaving a residue.

## ELEC III PLUS

PROD. #2283

*Aerosol Fast Evaporating Contact Cleaner*

### FEATURES/BENEFITS:

Excellent Material Compatibility	Quickly cleans sensitive electrical equipment without causing harm to materials.
Fast Evaporating	Nonconductive solvent evaporates rapidly for quick cleaning of electrical components.
Non-residual	Leaves no residue allowing for safe cleaning of sensitive electrical equipment.
36.2 kV Dielectric strength	Nonconductive and withstands breakdown up to 36,200 volts

**Note:** Elec III Plus is generally compatible with materials used in electronics and electrical cleaning applications. However, solvent compatibility should be determined on a non-critical prior to use. May damage stressed plastic.

### APPLICATIONS:

Use on: circuit boards, precision instruments, electrical contacts & switches, timers and relays, tape heads, tuners, automatic counters, radio receivers & transmitters, recorders, telephone equipment. Particularly useful in: Small Engine Repair, Airports/Aviation Services, Service Stations, Automotive Repair Shops, Heavy Equipment Maintenance, Telecommunications, Printing Industry, and Schools & Educational Services

### COMPANION PRODUCTS:

Aerosolve II, Power Solv 5000, Dyna 170, Formula 50, Reach, Cherry Bomb, Zep 45, Zep 2000, Zepreserve NC

### SPECIFICATIONS:

Physical Form	Aerosol
Color	Colorless
Odor	Solvent
Flammability	Non-flammable by CSMA Flame Extension
Shelf Life	1 Year Minimum

### PACKAGING:

12 fl. oz. can
