

PRODUCT SPECIFICATION REPORT

Hitman DM is an effective surface spray insecticide for killing a variety of crawling & flying insects indoors and outdoors.

HITMAN DM

PROD.#2040

Ready-to-Use Insecticide Surface Spray

FEATURES/BENEFITS:

Kills a Variety of Insects	Effective against cockroaches, ants, boxelder bugs, centipedes, crickets, fleas, flies, silver fish, ticks, spiders, scorpions, beetles, moths, and bedbugs. See label for specific insect species
Residual Kill	Treated surfaces will continue to kill cockroaches, flies, and ants for weeks
Low Odor	No objectionable odors during or following insecticide applications
Non-Staining	Water-based formulation will not leave visible film on baseboard, floor coverings or carpets as do many oil-based products
Kills & Controls Bedbugs	Spray on mattresses and bed frames to kill adult bedbugs

NOTE: See label for specific application recommendations and additional kill claims.

APPLICATIONS:

Recommended to kill crawling insects in and around: hotels & motels, schools, recreational centers, medical facilities, child day care services, nursing homes & hospitals, apartment buildings, offices, kennels, restaurants, airports, and bus terminals.
