

PRODUCT SPECIFICATION REPORT

ZEP-O-ZORB™ Oil & Grease Absorbent

DESCRIPTION

Inert, highly porous granular absorbent for oils, solvents, water, acids, and alkaline solutions.

FEATURES

- Inert
- Highly absorbent
- Improves housekeeping
- Reduced fire hazard
- Improved traction
- USDA authorized

BENEFITS

- Will not react with strong oxidizers, acids, and other chemicals.
- Picks up 115 - 140% of its weight of water and 105 - 115% of its weight of oil.
- Absorbs oil and grease before it can soak into concrete or wood.
- Picks up spilled flammable liquids and “locks them up”, thus reducing fire hazards.
- Applied to icy or wet floors, it reduces slip hazards by providing a rough, non-slid surface to walk on. Will not crush or dust under traffic.
- Authorized for use as an absorbent or anti-slip agent for spot applications to floors in federally inspected meat and poultry processing plants.

APPLICATIONS

Recommended to garages, hangars, factories, kitchens, food processors, warehouses, shops, etc.
