

# PRODUCT SPECIFICATION REPORT

Orange Float is a specially formulated, non-emulsifying solvent for control and elimination of build-up on lift station walls.

## ORANGE FLOAT (XT-5490)

PROD. #3670

*Floating Citrus Solvent for Lift Stations*

### FEATURES/BENEFITS:

Non-Emulsifying	Floats on the surfaces of the water to control grease and scum build up
Very Effective Deodorizer	Gives a pleasant citrus fragrance as it breaks down grease and scum
Easy Disposal	Can be easily skimmed from the surface
Long lasting	1/2 - 1" layer of solvent on the surface at 1/4 - 1/2 gallons per sq. feet for a one month usage
Versatile	May be used as a floating citrus solvent for lift stations, wet walls, and holding tanks

### APPLICATIONS:

Orange Float can be used anywhere there is a lift station. Especially useful in:

Mining Locations

Water Management Areas

Municipalities

Manufacturing Plants

Sewage Treatment

Mitigation Processing
