## PRODUCT SPECIFICATION REPORT

### SELIG

## ON AND OFF

### Heavy Duty Oven and Grill Cleaner

#### DESCRIPTION

Zep On and Off is a ready-to-use, liquid, heavy duty cleaner to remove grease, fat, and baked-on carbon deposits from kitchen surfaces.

#### FEATURES

- Fast-Acting Cleaner
- Vertical Cling
- Ready-to-Use & Non-Aerosol
- Lemon Fragrance

#### BENEFITS

- Zep On and Off will quickly penetrate and loosen the toughest baked on food and grease from ovens, stoves, grills, drip pans, hoods, etc.
- The clinging gel formulation provides for longer contact time on vertical surfaces to increase cleaning power.
- This product is ready-to-use which alleviates the safety issues caused by mixing or pouring aggressive chemicals. The trigger spray bottle is more economical than aerosol cleaners of the same type.
- Many oven cleaners have a harsh odor, but Zep On and Off has a pleasant lemon fragrance.

Note: Due to highly alkaline nature of the formulation, do not use on aluminum, copper, galvanized, plastic composition tile, painted surfaces, self-cleaning and/or continuous cleaning ovens.

#### APPLICATIONS

Formulated and packaged for convenient use in all food preparation areas such as kitchens of:

|                                  |                                 |          |
|----------------------------------|---------------------------------|----------|
