When your dog or cat takes those first curious sniffs of a new P.L.A.Y. bed, you'll sense that something great is happening. Why?

**Because P.L.A.Y. has a unique approach to designing special things for your pet.** One that takes you, your pet and our planet very seriously. And takes fun pretty seriously, too.

## BETTER FOR YOUR PET .....

### luxurious coverings

At P.L.A.Y., our fabrics go through a stringent selection process and only the finest upholstery grade fabrics or hypoallergenic materials are chosen. These soft yet durable, breathable and allergy-free coverings will totally pamper your pet.

### made to baby your pet

Our dogs and cats mean the world to us. So we believe that our pet beds and toys should be manufactured to the highest quality standards. How high? All of our beds and toys are made in a facility that meets the strict quality standards for manufacturing infant and children products. We use AZO-free dyes and meet requirements for EN71 – Part 1, 2, 3 & 9 (EU), ASTM F963 (US) toy safety standard, and REACH – SVHC.

## BETTER FOR YOU .....

### removable covers and inserts that are 100% machine washable

Let's face it: pet beds get dirty. So our covers AND inserts are all 100% machine washable and dryer friendly. And should you see more than one cover that you simply can't live without, our rectangular and round covers are sold separately. So you can easily zip one off and zip another one on between washes.

### exclusive designs

Our Artist Collection beds have designs that were created exclusively for P.L.A.Y. by artists in San Francisco, New York and Los Angeles. Stylish, creative and –of course – playful, these designs turn our beds into fluffy and irresistible works of art that complement any home.

## BETTER FOR YOUR PLANET .....

### recycled materials

Your dog or cat will feel pure comfort. You'll feel the satisfaction of knowing that the PlanetFill® in our pet beds is made of certified-safe, 100% post-consumer recycled products. PlanetFill® is our own trademarked filler created from cleaned and recycled plastic bottles!

### eco-friendly packaging

While we don't use much packaging at P.L.A.Y., what we do use meets the highest standards. For example, our bedding product tags use materials that are certified-safe by the Forest Stewardship Council (FSC), the only forest certification system that is supported by all major environmental groups.
