

**SATAjet X 5500
Clear Coat
Edition**

SATA

PERFECTLY CLEAR!

SATAjet X 5500 RP 1.3cc for
clear coat application.

The SATAjet X 5500 Clear Coat Edition shines with its newly developed, special nozzle set for clear coat application. The optimised material distribution in combination with a finer atomisation allows users to achieve closed wetting even at a low layer thickness.

Exclusive now! Limited design with a red body and black control elements!

Advantages at a glance:

- Special clear coat nozzle based on proven I-nozzle technology
- Fine, homogeneous atomisation for a perfect clear coat
- Closed wetting even at low layer thickness
- I-nozzle jet geometry allows controlled application

The special clear coat nozzle bears the additional designation "cc" (SATAjet X 5500 RP 1.3cc).
