## HIGHLIGHTS

### Ground coffee compartment

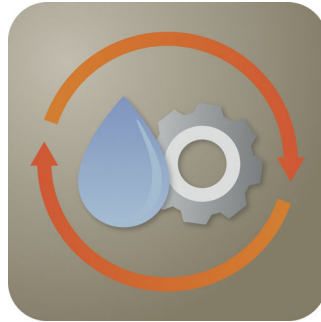

The ground coffee compartment allows you to brew a different blend of coffee without changing the beans. Simply switch your Espresso machine to ground coffee and fill the compartment with the amount for one Espresso.

### Standby mode

Your coffee machine switches off automatically after one hour. In the energy-efficient standby mode your Gaggia machine will drain less than 1 kW/h and save you money compared to other espresso machines.

### Automatic circuit cleaning

Saeco designed this espresso machine to automatically clean its coffee circuit with water when the machine is started up or switched off. This delivers a great, fresh taste with each cup of coffee.

### Ceramic grinders

The high-tech grinders of this coffee machine beat the competition's steel grinders on many levels: always the perfect Italian taste because of consistent accurate grinding without overheating, supreme longevity and super-silent operation.

### Descaler Warning

Dedicated led to advise the end user that the machine needs to be descaled

### Energy efficient

This feature keeps the power consumption to a minimum. In fact, less than 1 Watt per hour is needed in stand-by mode, which is switched to automatically after 1 hour, saving resources and money

### Easy frontal access

All the components you need to reach during your day-to-day enjoyment (water, coffee beans and coffee grounds container, drip tray, removable brewing group) are completely independent and accessible from either the front or top of the machine.

### Pre-brewing system

Pre-brewing for even more enjoyment. Thanks to the Pre-brewing Technology, the coffee grounds are moistened before the actual brewing process – ensuring that the aroma unfolds even better.

### Removable brewing group

The brewing group, a Saeco invention, is the heart of our espresso machines, ensuring automation. The brewing group is, depending on the model, easily accessible from the front or side. It can be removed effortlessly for easy cleaning by rinsing under the tap, ensuring maximum hygiene.

## SPECIFICATIONS

### Technical specifications

- Number of water boilers: 1 boiler
- Supported coffee types: Ground coffee, Whole coffee beans

### Service

- 2-year worldwide guarantee

### Weight and dimensions

- Water tank capacity: 1.2 l
- Product dimensions: 45.5 x 33.0 x 42.5 cm
- Coffee bean capacity: 250 gr
- Waste container capacity: 8 servings
- Product weight: 8.5 kg

### Multi-Beverage

- Milk Variations: Pannarello: milk frothing

### Technical data

- Boiler: Stainless steel
- Frequency: 50 Hz
- Power: 1400 W

- Pump Pressure: 15 Bar
- Voltage: 230 V

### Easy to use

- Usage: Adjustable coffee dispenser, Bypass for grinded coffee, Rapid steam, Removable brewing group, Removable water tank

### Perfect Espresso

- Espresso technology: Saeco adapting system

### Design

- Colour: Silver
- Materials and finishing: abs/stainless steel

### Energy saving

- Energy saving: Automatic stand-by

### Features

- Brita Filter compatible
- Cup holder
- Hot water/Steam Nozzle
- Pannarello: Stainless Steel
