

**AUTUMN/WINTER 2023 COLLECTION** 

#### Dear Friends,

Welcome to our Autumn/Winter 2023 Collection. London was the source of inspiration for our fall line - deep saturated tones reflecting the depth of an old, diverse and vibrant city. Dreams of old Georgian buildings, copper saucepans, worn wooden floors, weathered brick walls, bronze door handles and flickering candlelight all providing endless sources of influence. You'll notice some names such as Hazlitt's Check, The George Plaid and Islington - all named after some favorite locations in London that remain dear to me.

New textures for fall - wonderously warm, colorful, textured socks that compliment our line perfectly! Crafted in Japan with great thought and intention by a small, family run artisnal business. I adore these socks and find they compliment our linens so well.

We've added some new shoes from our friends in upstate New York - these handmade shoes are incredibly comfortable and I highly recommend them to anyone who is looking for soft, comfortable, leather shoes made by another small family run business that we discovered. (We included them in our photoshoot as they compliment our dresses perfectly.)

Our collection arrives on Saturday, September 9th at 8 a.m. PST. I hope you enjoy it as much as I do.

Cheers!
