SPRING/SUMMER 2024 COLLECTION

## PREFACE

Dear Friends,

Welcome to our Spring 2024 Collection. At last, winter is winding down a little (at least it is here on the west coast) and peeks of spring are emerging. The Spring collection is inspired by warm days spent on the Mediterranean coast, days spent on the little beach inlets and coves ('Cala' in mainland Spain) while wearing long layers of linen in bold saturated colors. Our newest additions to the dress line include Model No.15, sister to the beloved Model No.17 style - a midi length version, crafted in the zesty Paloma Check. No.39 is a brand new silhouette for P&S - the shirt dress. It's a relaxed fit - designed to be worn as a stand along piece or layered over a dress or with culottes. I think it will be so practical for beach days, the perfect cover up styled with a large sunhat - I can feel the sunbeams on my toes already! Speaking of toes, we have some new fresh colors from the wonderful Nishiguchi Kutsushita - a truly unique Japanese sock maker, featuring linen socks. Additionally, we have added the most comfortable summer sandal you will find for your feet, by our friends Aurora Shoe Co, made in New York. These sandals are affectionally known as 'the walking shoe' because hikers have been know to wear them on long distance walks! The new collection arrives on Saturday, March 9th at 8 a.m. PST. Thank you for being here!

Cheers!
