WHAT PATIENTS ARE SAYING ABOUT CONTOURA

Hear the difference Contoura procedures are making for these real patients

I lost inches in my thighs and my body looks and feels tighter. I would recommend this treatment to anyone who wants to get rid of that little extra fat they are carrying.

- SUSAN | BODYFX

I had a few deep dimples on my thighs that were bothering me when I wore a bikini or short shorts. MiniFX was a very comfortable, easy treatment that gave me my confidence back. Now the back of my thighs are very smooth and match the rest of my body! I couldn't be happier with the results.

- JOANNA | MINIFX

I had some annoying and ugly sagging skin just above my knees. I work out a lot and just had no other way to get the skin back to where I needed it to go, the Plus got me back in summer shorts again.
