BODYTITE^{PRO}

ADVANCED BODY CONTOURING & REFINEMENT PROCEDURE WITH RFAL TECHNOLOGY

We all strive to look and feel our best. Diet and exercise are at the cornerstones of staying fit, but sometimes that is not sufficient. Now you have the answer: BodyTitePRO.

WHAT IS BODYTITEPRO?

BodyTitePRO is a great solution for individuals who are looking to reduce fat without the saggy, wrinkly skin. It also helps improve skin laxity after weight loss or due to aging. BodyTitePRO is a minimally invasive procedure that shapes, contracts and lifts without the scalpel or large scarring. You are left with surgical-like results without prolonged downtime.

FULL BODY RENEWAL BREAKTHROUGH BODY RESHAPING

“BodyTite has tightened and formed my body and I don’t have saggy skin or rolls anymore. Three years after having my baby, I feel like I have a new body image and my shape back.”

- L.M., PATIENT

One Procedure. Significant, Long-Lasting Results.

BodyTitePRO uses RFAL (Radio-Frequency Assisted Lipolysis) technology that addresses some of the shortcomings associated with traditional liposuction or surgical body lifts.

WHAT AREAS CAN BE TREATED?

If you can imagine it, you can do it: stomach, arms, chest, knees and inner/outer thighs are some of the most common treatment zones. Multiple areas can be treated in one visit. Each zone will take approximately 15 minutes of treatment.

WHAT IS THE DOWNTIME?

Depending on the treatment area, downtime can be from 1-2 days up to 10 days.

HOW QUICKLY WILL I SEE RESULTS?

Results can be seen immediately, with best results noticeable after 6 months, and continuing up to 12 months. With BodyTitePRO treatment times are faster than any other energy based device on the market.

BODYTITEPRO EFFECTS:

BodyTitePRO gently treats fat in stubborn areas while tightening the skin, helping you sculpt your body into its ultimate shape.

Ask your provider to see if BodyTitePRO is right for you.
