SIGNS OF AGING

INMODE

FORMA

INMODE

What is Forma?

Radio-frequency technology that provides optimal skin contraction in deep layers. The RF energy will stimulate new collagen and improve skin elasticity for long lasting improvement.

Does it hurt?

Forma is virtually painless with no downtime due to its precise technology and deep layer targeting of the skin. Patients will be slightly red for a few hours after the procedure.

How many sessions?

Typically, patients will do 6-8 treatments spaced a week apart.

Is Forma for me?

Forma is safe for all skin types and perfect for patients seeking a natural look. Patients report that their skin feels much smoother and more defined after their treatment session.

FRACTORA

INMODE

What is FRACTORA?

Fractora is a fractional rejuvenation treatment that reduces wrinkles to slow the effects of aging and restore skin to its youthful appearance.

What areas can be treated?

Any areas that can benefit from skin renewal. Lower and upper eyelid, smile lines, forehead, cheeks. Virtually any areas that exhibit wrinkles, discoloration or acne scars.

How many treatment sessions?

This depends on the type of treatment you have done, but roughly 1-6 sessions.

Additional Benefits:

- Immediate results in most cases
- Can be used on all skin types
- Very minimal downtime

LUMECCA

INMODE

What is LUMECCA?

It is the most powerful IPL to treat pigmented or vascular lesions. Patients will notice significant improvements after a single session with skin clarity and complexion.

What are the benefits?

In just 1-3 sessions Lumecca improves the appearance of:

- Age spots
- Vascular lesions
- Rosacea
- Freckles
- Sun Damage

Additional Benefits:

- Can be used on all areas of the body
- Younger and healthier looking skin

VASCULAZE

INMODE

What is VASCULAZE?

Vasculaze can help alleviate a wide variety of facial and leg vein issues using a laser that specifically targets the blood vessel causing it to blemish.

How does it work?

The Vasculaze technology works by sending pulses of light onto the vein, which makes the vein slowly fade and disappear, preventing the need for unpleasant incisions or needles.

How many treatments?

Typically three treatments are performed, however some may require more sessions.

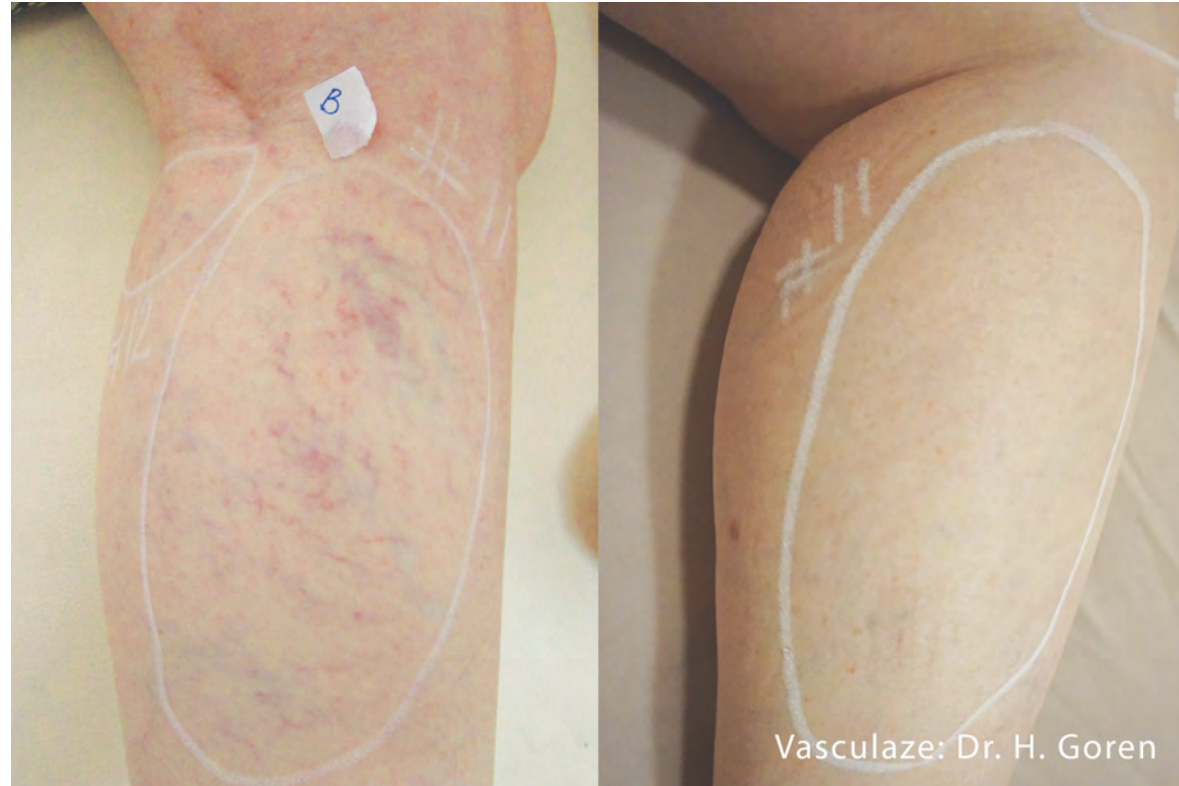

Additional Benefits

- Quick in-office procedure
- No downtime

DIOLAZE *xl*

INMODE

What is DiolazeXL?

DiolazeXL is an advanced laser hair removal procedure that safely and gently eliminates unwanted hair. DiolazeXL has one of the largest treatment spot sizes making each session convenient and fast.

How does DiolazeXL work?

The diode laser beam passes through the skin towards hair follicles. The penetrating energy then heats up the root of the hair, which in turn prevents from future growth.

Does it hurt?

DiolazeXL has a built in cooling surface which is one of the largest for all hair removal devices. Feedback from some patients have noted that it is virtually painless.
