

Our Initial In-store Experience Will Be A Bit Different

In an effort to keep all of our staff and customers safe the following guidelines have been set for our in-store experience.

1. We will have a maximum occupancy in the store of 2 customers/parties.
2. We will be taking appointments (and they are recommended) as well as walk-ins. Depending on the number of people in the store we may have a waiting list for walk-ins. You may wait outside or give us your cell phone number to text/call you when there is availability.
3. Our fit process will involve no physical contact. Customers may still use the treadmill or run outside during the fit process.
4. All surfaces and areas that customers come into contact with during fitting and shopping experience will be disinfected prior to the admittance of the next customer.
5. We require that all customers and staff wear masks/face coverings in the store and practice safe social distancing (6 feet) from any other customers in the store.
6. All product that is tried on or comes into contact with customers will be disinfected/quarantined.
7. Virtual shoe fittings and curbside pickup will continue to be available.
8. Employee wellness checks will be done at the start of every shift.
8. If you're sick or not feeling well, please stay home. We're happy to serve you when you're feeling better, or by telephone or online at commonwealthrunning.com

We understand that this is a very different shopping experience than what our customers are used to. We ask for your patience and understanding while we navigate these new challenges together.

Stay safe and healthy!

Matt Abitbol
