

AQUA PATCH

Save money by eliminating repeat repairs!

Fast - Traffic-ready immediately

Easy - Just add water

Environmentally friendly

Permanent - As hard as hot mix asphalt

Convenient - Use in Winter or Summer, rain or shine!

Patent Pending

Doing the job right - the first time, is now faster and easier than ever!

AQUA PATCH saves time and money while delivering a superior, permanent repair to asphalt and concrete surfaces. This cold-mix, water-activated product is environmentally friendly. It sets up quickly and is traffic-ready immediately.

Unlike other asphalt patching solutions, AQUA PATCH provides a permanent solution, using revolutionary organic renewable additives, so you don't have to continually repair the same trouble spot, or replace a temporary fix with a permanent solution.

Don't let weather interfere with your production schedule. You can use AQUA PATCH all year round, in all types of weather, hot or cold, wet or dry. Rain and moisture actually helps accelerate the process.

AQUA PATCH is traffic-ready immediately after compaction, so road repairs don't tie up traffic as long.

AQUA PATCH comes ready to use and application is quick and easy. Simply clear debris from the repair area, apply AQUA PATCH, add water and tamp it down. Fast, easy and permanent!

Environmentally friendly
AQUA PATCH is water activated, environmentally friendly and non-toxic. No hydrocarbon leaching or evaporation.

1. Apply AQUA PATCH

2. Add water

3. Tamp down

AQUA PATCH

Permanent Asphalt/Concrete Repair Solution

AQUA PATCH is a cold-mix, permanent repair solution for asphalt and concrete applications that reacts with water to harden quickly, being traffic-ready immediately. The proprietary hardening agent is environmentally friendly and renewable.

Instant Strength Development

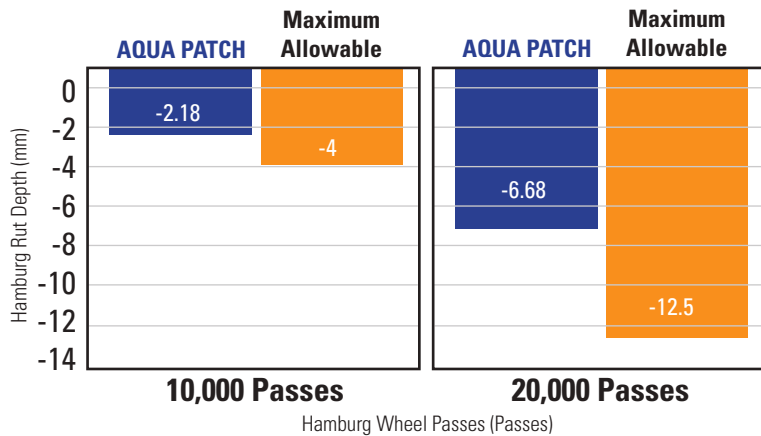

Applications:

- Asphalt road patching
- Concrete road repairs
- Pothole repairs
- Driveways, walkways and parking lots
- Utility cuts and manhole repairs
- Bridge joints

Benefits:

- Easy - pour, add water and tamp
- Durable - as hard as hot mix asphalt
- Fast & hard - traffic-ready immediately
- Saves money - eliminates repeat repairs
- Environmentally friendly
- Can be sealed with a seal coat immediately after one hour cure.

Hamburg Wheel Tracking Test (AASHTO T324)

- 1 Remove loose debris and clean the area to be patched.

- 2 Pour AQUA PATCH in the hole.

- 3 Spread and level. If deeper than 2 inches, apply in two layers.

- 4 Pour water over AQUA PATCH evenly. Excess water does not damage the material, or undermine the repair.

- 5 Compact into a smooth finish.
