

MOUNTING FLYSCREENS & WINDSHIELDS

First arrange the fastening materials, in order of use, according to the instructions.

Guide the rods into the mounting holes on the headset.

Set the position and hand-tighten the fastenings.

Adjust the screen to desired height.

Using an open spanner, tighten the fastening nuts to fix the final position.

(e.g. PIAGGIO 'Cruiser' flyscreen on a Vespa GT/GTS, part no J602953M)
