Quality

Surpassing standards from Europe and America

Material Safety

All Honey Play Box products are manufactured using environmental friendly materials including Silicone and ABS plastics. They are harmless to human body.

International Certification

Honey Play Box products have passed EU ROHS certification and meet EU CE Directive and WEEE Directive. Honey Play Box products are "Green" meeting the official safety and environmental protection standard issued by agencies in Europe and North America.

Additional Information:

The EU CE Directive and the WEEE Directive are referred to as the "Twin Directives for Environmental Protection" or "Double Green Directives" and are used to restrict hazardous substances in electronic products including lead, cadmium, and mercury. ROHS stands for "Restriction of the Use of Certain Hazardous Substances"; and WEEE stands for "Waste Electrical and Electronic Equipment". Products that meet the standards set out in these two directives can be advertised as "Green Products".

EU CE Directive:

Is the collective name of a series of product standards issued by the European Union; enterprises complying with the standard may apply for CE certification mark on their products and labelling. Honey Play Box products surpass the standards set out by these directives and are authorized to use the mark identifying that the products comply with all EU requirements.

WARNING!

Proper maintenance and care may extend the product's service life. Before using the product, please read the following safety instruction carefully.

1. Please comply with the following before using the product:
Clean the product completely. Scrub it with an antibacterial soap and then wash with clean hot water; at last, wipe it gently with towel or soft cloth.

2. During using the product
● NO using massage oil or hand cream as lubricant.
● NO using silicon-based lubricant, because it'll damage the organosilicone surface.

Reminder: Do not use any cleaning agent containing alcohol, gasoline or acetone to wipe the product. Avoid direct solar radiation and long-time exposure to the high-temperature environment. The product shall be stored in a clean and dry place without contact with other plastic products.

Maintenance of the Built-in Battery:

- This product uses rechargeable batteries. A new battery could play its full effectiveness after two or three charging and discharging processes.
- A battery can be charged or discharged for over 100 times and will go matured finally. After being charged fully, the battery shall be disconnected with the charger, or overcharge may reduce the battery life.
- When the product is idle, the electric quantity of fully charged battery will lose gradually.
- If the product is placed in a too hot or cold place, it will reduce the battery capacity and shorten the battery life. If the battery is too hot or cold, the battery life will be also short even though it is charged fully.

Battery Warning!

- When the battery damaged or tampered with, it could cause fire or chemical burn. Explosion may happen when the battery is damaged.
- The battery shall be disposed in accordance with the local laws and regulations. If possible, please recycle it. Users shall not take out or replace the battery by themselves; otherwise, the risky operation may damage the product.
