Uric Acid Balance

Multi-Targeted Uric Acid Support

humanⁿ Professional Uric Acid Balance is doctor-formulated and features clinically researched ingredients uniquely combined to promote healthy Uric Acid levels, support metabolism, immune health, blood sugar levels, a healthy inflammatory response, and help reduce oxidative stress in quick release capsules.¹

Science & Quality

- **Targets a Key Marker of Metabolic Health:** Supporting already normal uric acid levels can positively influence a spectrum of metabolic health markers. The clinically researched, pure 500mg dose of NordicCherry[®] in just one serving of Uric Acid Balance promotes healthy uric acid levels,¹ so you can experience the benefits of an innovation in metabolic science.
- **Clinically Researched, Bioactive Tart Cherry** Uric Acid Balance is expertly formulated with clinically researched NordicCherry[®], a bioactive and full-spectrum whole fruit tart cherry extract. Our unique Danish Tart Cherry Extract is more concentrated in bioactive polyphenols (anthocyanins, proanthocyanidins, flavanols) than other conventional tart cherry extracts or powders. One serving of Uric Acid Balance contains the antioxidant equivalent of 100 Tart Cherries or 16 ounces of Tart Cherry Juice.
- **Clinically Researched Ingredient Dosages in Every Serving**
 - **Tart Cherry Extract** – each serving contains 500mg of NordicCherry[®] to support healthy uric acid levels.¹
 - **Vitamin C** – each serving contains 500mg of Vitamin C to support healthy Uric Acid levels¹, while also promoting immune support¹. Clinical research suggests that 500mg of Vitamin C per day can help support healthy uric acid levels in the blood.¹
 - **Quercetin Dihydrate** – each serving contains a clinically researched 500mg of Quercetin to support uric acid levels and promotes a healthy inflammatory response.¹
 - **Decaffeinated Green Tea Extract** – each serving contains 300mg of decaffeinated green tea extract standardized to 98% polyphenols, 80% catechins, and 50% Epigallocatechin gallate (EGCG). Green Tea Extract acts as a powerful antioxidant which helps inhibit xanthine oxidase activity and subsequently helps reduce reactive oxygen species (ROS) which promotes healthy Uric Acid levels.¹
- **Doctor Formulated:** Uric Acid Balance is Doctor formulated to provide multi-targeted uric acid metabolism support.
