Why Rinnai?

Only Rinnai offers the quality and reliability that is built on a 90 year history of innovation and improvements. Rinnai commands quality through in-house design, engineering and manufacturing, and ensures your satisfaction with in-house support.

At **Rinnai**, we are fiercely committed to delivering nothing less than our absolute best. Our passion for constant improvement drives us to create incredibly innovative water heating and home heating gas appliances for both residential and commercial applications.

Why Gas?

Gas has been used for generations for cooking and heating. It provides fast, sole energy input and it is the fuel of choice for millions of people all over the world. Gas is the number one choice for water heating globally.

In countries, where the electrical infrastructure is struggling to keep up with new demands, Rinnai Space Heaters, offers the perfect solution.

The best in comfort, safety and efficient heating.

With a minimum energy efficiency rating of 4.8 Stars, our range of Energysaver® heaters outperform almost all other forms of heating. Sending out warm, clean air, they create zero emissions, which is ideal for those susceptible to allergies or respiratory problems.

Portable Gas Convector are a highly efficient and flexible home heating solution. They are not only economical to run, but can be used in any room with the appropriate gas connection point, and stored away when not in use. Explore our range and discover the convenience and comfort of Rinnai portable heating.

Enduro 13 Convectector

Pocket rocket

The smallest heater in our range, the Enduro 13 is highly economical to run and doesn't require professional installation. Due to its size it's naturally suited to smaller spaces.

- Economy mode - reduces running costs
- Delay on timer
- Delay off timer
- Low emissions technology
- Ideal for smaller living areas
- Electronic thermostatic control
- Available in platinum silver or white

Avenger 25 Convectector

Designed for open plan living areas

The Avenger 25 is Rinnai's most popular portable convectector model, and boasts the largest gas heat output in our range. What's more, it can be installed simply by connecting it to a gas bayonet point.

- Low emissions technology
- Remote control
- Ideal for large, open plan living areas
- Four programmable timers
- Remote control

Enduro 13 Convector

Specification

Dimensions (mm) : Height	495
Dimensions (mm) : Width	490
Dimensions (mm) : Depth	245
Colours	White or Platinum Silver
Gas Input MJ/h Low	6.0
Gas Input MJ/h High	13
kW Output	3.3
Heats up to Capacity (m2) : Very Cold	28
Heats up to Capacity (m2) : Cold	33
Heats up to Capacity (m2) : Cool	45
Heats up to Capacity (m2) : Mild	51
AS4553 Efficiency Star Rating	5.8
AS4553 Emmissions Star Rating NG & LPG	3.6/3.5
Economy Mode	Yes
Child Lock or Lock Button	Yes
Delay ON Timer	Yes
Delay OFF Timer (60 Minute)	Yes
Gas Type	LPG & NG

Avenger 25 Convector

Specification

Dimensions (mm) : Height	570
Dimensions (mm) : Width	610
Dimensions (mm) : Depth	245
Colours	White or Platinum Silver
Gas Input MJ/h Low	8.5
Gas Input MJ/h High	25
kW Output	8.2
Heats up to Capacity (m2) : Very Cold	70
Heats up to Capacity (m2) : Cold	83
Heats up to Capacity (m2) : Cool	113
Heats up to Capacity (m2) : Mild	128
AS4553 Efficiency Star Rating	5.8
AS4553 Emissions Star Rating NG & LPG	3.8/3.5
Thermostatic or Manual Control	Thermostatic
