

Pogo Safety Rules for Best Results:

- **Always use protective gear** when jumping (Helmet, Elbow Pads and Knee Pads)
- **Always adhere to the weight range guidelines** for your Pogo Stick!
- **Never** use your Super Pogo Stick **without its rubber tip!**
- **Always** use your Super Pogo Stick on a hard surface...Never use it on grass, or soft, or sandy surfaces!
- When you jump **Do not push your Super Pogo Stick away from you...**you cannot balance in this manner and you could damage your Super Pogo Stick!
- **Do not** trap the Super Pogo between your knees. Allow the Super Pogo to move freely, without coming in contact with your legs.
- **Always check** your Super Pogo Stick for potential problems before using it!
- **Make sure your friends are well instructed** before allowing them to use your Super Pogo Stick!

If any parts are missing from your new Super Pogo Stick, do not return it to the place of purchase.

We will rush you any missing parts at no charge.

**Super Pogo is
For User Weights
120 to 210 Lbs
Several successive
jumps are necessary
to compress spring.**
