

BC0528

This TripleSweet Plus, Primus-type variety produces consistent, long ears and tender, juicy kernels of excellent eating quality. With insect resistance through the Attribute® trait stack, BC0528 offers built-in protection against key pests to maximize yield and quality.

In addition to high-level insect protection, BC0528 offers beneficial Liberty® herbicide tolerance for flexibility in weed management and gives growers another option for harvesting outstanding yields of high quality sweet corn that meets market needs.

FEATURES

- Long ears with tender, sweet kernels
- Excellent tip fill and attractive flag leaves
- Built-in tolerance to Liberty herbicide

BENEFITS

- Excellent for main season plantings
- Strong visual appeal
- Outstanding TripleSweet Plus eating quality
- Consistent high yield and performance
- Flexibility in weed management programs
