

Coyote

An upright bush style variety for machine harvest, Coyote produces concentrated sets of dark green beans and is widely adapted to most growing regions. This variety delivers consistent high yield potential across most bean growing regions.

FEATURES

- Pods that resist breaking and bruising
- Upright bush with concentrated pod set for efficient harvest
- High resistance to bean common mosaic virus
- High yield potential

TECHNICAL DATA

Approx. days to maturity	55
Avg. pod length (in)	5
Avg. sieve size	3 – 4
Pod color	Dark green
Disease resistance*	HR: BCMV

BENEFITS

- High consumer appeal with dark green colored pods
- Plant structure and pod setting result in high percentage of marketable beans
- Versatile across growing regions

DISEASE ABBREVIATION KEY

BCMV	Bean common mosaic virus
HR	High resistance
