

# Mountain Man

Mountain Man is a fresh market tomato variety ideal for the eastern summer production season. The strong plant type produces extra-large fruits with delicious flavor designed to keep customers happily returning. TSWV resistance protects yield to ensure high return on investment potential for growers.

## FEATURES

- Early and high yielding
- Strong plant type to sustain multiple pickings throughout the vine ripe harvests
- Extra-large fruit size
- Well-balanced flavor between sweetness and acidity
- TSWV resistance

## BENEFITS

- High yields and high return on investment potential
- Earliness to harvest brings faster returns for growers
- Attractive for retail customers
- Great fit for eastern US summer seasons
