

Paquime

A hybrid jalapeno pepper variety for the fresh market, Paquime produces large fruits of excellent quality. Its vigorous plant establishes well after transplant, and this early maturing variety offers high yield potential. Paquime is an ideal choice for growers in major jalapeno production areas that have little precipitation.

FEATURES

- Vigorous plant with excellent setting
- Early maturing variety
- Large to extra-large fruit size
- Medium-green to dark-green in color
- Produces uniform fruits with great firmness and quality, ideal for the fresh market

BENEFITS

- Produces large, high-quality fruits
- Produces fruits with thick walls that are firm and durable throughout harvest, packing and transportation
